Cost vs Quality: Why Compromise?

NBS can save you up to 40% on your phone calls without compromising on call quality

Choose NBS for your fixed line communications and it could be one of the best decisions you make. Not only do we offer **competitive tariffs**, we also promise **business-class call quality**, giving you **the best of both worlds**.

Add to this our **industry-leading online call reporting package**, a host of additional services such as **non-geographic numbers**, **calling cards**, **Broadband** and **unrivalled customer service**, and you've found **the perfect partner for all of your telecommunications needs**.

Moving to NBS could not be easier. There are no set-up costs, no change to your existing number, no need to dial access codes – just **a simple and seamless move to cheaper calls, tailored to your individual needs**.

Call tariffs to suit your profile, including international and mobile

How do we do it?

NBS has key partnerships with the UK's top telecommunications providers. Our commitment to independence means we can offer you competitive tariffs, giving you peace of mind that your communication costs remain low without compromising on quality.

Fixed Line

Least Cost Routing

NBS will project manage the reprogramming of your telephone equipment to automatically insert a code in front of all dialled calls, which instructs the BT exchange to route calls over our partners' networks for access to low cost, high quality calls.

Carrier Pre-Selection

CPS involves programming the BT network to route calls over our partners' networks. No access is required to your premises and there are no equipment changes or additions to make. NBS takes care of everything to ensure a quick and seamless transition to low cost, high quality calls.

Avoid complex rules & restrictions, benefit from the simplicity of highly competitive tariffs. No catches, no regulations, just cheaper calls.

Don't compromise, choose NBS

Who Are We?

NBS provides communications solutions to businesses throughout the UK. With many years' experience and thousands of business customers, you can be sure that we are here to stay and help your business grow.

NBS offers high quality, low cost fixed, mobile and data communications services, voice platforms and a host of value-added services such as non-geographic numbers and calling cards. NBS can tailor fixed-line and mobile solutions, including GPRS mobile data, to suit your specific business needs.
